PART He-C 4002 NH CHILD CARE PROGRAM LICENSING RULES

**NH Child Care Program Licensing Rules
2008**

Dear Colleague,

The revised New Hampshire Child Care Program Licensing Rules are the result of a very collaborative process. We started with a survey that went out to all our licensed child care programs. We convened a task group with members representing child care programs and offices and organizations that work with and for the child care community. We held multiple rule revision forums throughout the state and continued to seek public input throughout the revision process. This set of rules represents a great deal of hard work on all our parts. It is the result of collaboration, thought, discussion and sometimes compromise. We should all be proud of our results.

The revision process was enhanced when we at Child Care Licensing met and worked with many early childhood education and child care professionals and families who directly impact the lives of children every day. We have had great conversations about what we could and should do for child care in New Hampshire. There is still a lot of work to be done. We strive for continued partnership and innovation as we look forward to our future as an integral part of the early childhood system in New Hampshire.

Sincerely,

Denise Corvino, Chief
Child Care Licensing Unit

Using the Rulebook

There are many sections of the rulebook, some you'll use on a daily basis and others you will reference only once in a while. The best way to start is to briefly review the rulebook in its entirety to get a sense of what is here. Then carefully read the sections that affect your daily work. Reference the book when you are starting a new or unfamiliar process, such as your license renewal application or making changes to your program. All staff members should have knowledge of and access to the rules, so please share them with your colleagues. We're here to help, so if you ever have a question just ask us.

By request of several child care providers, we are formatting this rulebook to fit a 3-hole punch so that it may be put in a binder. We suggest you use labeled binder dividers at each section or just mark those sections you use regularly.

The rulebook can be a great resource and training tool. As we move forward with our plans, we will be providing guide pages that you will be able to insert in the corresponding section of your rulebook as they are distributed. We also suggest you insert your own notes, based on licensing coordinator visits and workshops or courses.

The guide is a work in progress and will be added to as time passes. This will include information previously found in the Appendix of the rulebook as well as helpful tools designed to help you maintain compliance with the rules. We are always open to ideas. This is a book for providers; so if you need something, let us know. We also ask that you check our website regularly for updates, tools and other information. Go to:

No person who is required to obtain a license or permit under this subdivision may advertise or cause to be published an advertisement soliciting a child for child day care unless the person has obtained the requisite license or permit.

§ 170-E:17 Investigation. – I. If the department has reason to believe that state or federal funds solicited and received by a corporation for conduct of a child day care agency are not being used for the purpose for which the funds were awarded, or are being fraudulently used by the corporation or its members, or purportedly are being used for a facility or agency which is actually defunct, or are being used by or for an agency which no longer carries a valid license or permit, the department shall report these facts to the attorney general and request an investigation of the corporation to determine if the corporation should be dissolved or whether other action should be taken against the corporation or its members.

II. The department shall conduct an investigation of any complaint of violations of any licensing or operating standards against permitted or licensed child day care agencies. All investigations shall be conducted at reasonable times, with the cooperation of other state or municipal authorities, if required, and may include unannounced visits. The commissioner shall request an annual narrative summary of complaints received by the department.

III. Records compiled during an investigation shall be confidential and shall not be made public by the department.

§ 170-E:18 Oaths; Subpoenas. – I. The department shall have the power to administer oaths in any disciplinary proceedings.

II. Upon request of the commissioner, the attorney general shall be authorized, for good cause shown, to subpoena witnesses and to compel, by subpoena duces tecum, the production of papers and records in any disciplinary proceedings under this subdivision.

§ 170-E:19 Records. – Every child day care agency shall keep and maintain such records as the department shall prescribe by rule pertaining to the admission, progress, health and discharge of children under the care of the child day care agency and shall report relative to such matters to the department whenever called for, upon forms prescribed by rule. All records regarding children and all facts learned about children and their relatives shall be kept confidential both by the child day care agency and by the department.

§ 170-E:20 Notice of Death. – If any child under the control of any licensed child day care agency dies, the licensee shall give notice of such event to the department within 24 hours.

§ 170-E:21 Penalty. – I. Any person shall be guilty of a misdemeanor who:

- (a) Conducts, operates or acts as a child day care agency without a license or permit to do so in violation of RSA 170-E:4, I;
- (b) Makes materially false statements to obtain or retain a license or permit;
- (c) Fails to keep the records and make the reports required under this subdivision;
- (d) Is required to obtain a license or permit under this subdivision and who advertises or causes to be published an advertisement soliciting a child for child day care which is not authorized by any license or permit held;

(e) Violates any other provision of this subdivision or any rule adopted under RSA 541-A by the commissioner for the enforcement of this subdivision.

II. Each day a violation continues to exist shall constitute a separate offense.

§ 170-E:21-a Administrative Fines. – The commissioner of the department of health and human services, after notice and hearing, pursuant to rules adopted under RSA 541-A, may impose an administrative fine not to exceed \$2,000 for each offense upon any person who violates any provision of this chapter or rules adopted under this chapter. Rehearings and appeals from a decision of the commissioner shall be in accordance with RSA 541. Any administrative fine imposed under this section shall not preclude the imposition of further penalties or administrative actions under this chapter. The commissioner shall adopt rules in accordance with RSA 541-A relative to administrative fines which shall be scaled to reflect the scope and severity of the violation. The sums obtained from the levying of administrative fines under this chapter shall be forwarded to the state treasurer to be deposited into the general fund.

§ 170-E:22 Injunctive Relief. – Any person may institute in any court of competent jurisdiction an action to prevent, restrain, correct or abate any violation of this subdivision or of the rules adopted under RSA 170-E:11; and the court shall adjudge relief, by way of injunction, which may be mandatory or otherwise as may be proper under all the facts and circumstances of the case, in order fully to effectuate the purpose of this subdivision and the rules adopted under it. In a prosecution under this subdivision, a defendant who relies upon the relationship of any child to himself has the burden of proof as to that relationship.

§ 170-E:23 Confidentiality and Investigations. – State registry files and all other related confidential information kept by any state agency may be used by the department for the purpose of investigation and licensure. The department shall strictly observe the confidentiality requirements of the agency from which it receives information.
